PRICE LIST

Fall 1917—Spring 1918

"I can furnish a splendid demonstration of why NOT to plant cheap trees.

"The former manager of the orchard I now have charge of bought and planted some trees—cheap in price, cheaper in quality. They are NOW FIVE YEARS old. They are stunted, crooked, have required extra cultivation and care. It is almost impossible to make them grow.

"STARK TREES PLANTED THREE YEARS AGO ARE MUCH LARGER, finer and more shapely than the five-year-old cheap trees.

"Anyone having any doubt about what cheap trees will NOT do and what Stark Bro's Whole Root Trees WILL do should come to my orchard."

Benjamin W. Douglass, owner and manager Hickory Hill Orchard, Trevelar, Ind., former State Entomologist and Manager of the Indiana Apple Show.

You Can Have A Success Orchard Four Definite Steps

There is a definite way for you to reach independence through fruit growing. This column tells you how to get the greater profits of fruit growing. It will pay you handsomely for any time that you spend reading it. ¶ At your disposal is our experience gained in a century of sincere service to orchardists. Here are the four steps that will show you the shortest road to money in orcharding.

STEP ONE—Select varieties of fruits best adapted to your section of the country. We describe only varieties of exceptional merit, selections based on our 101 years experience and the advice of leading experts of every state—the master minds of modern horticulture. We offer you the best fruits of every type and season. Study of the accompanying "Success Orchards" Book will give you much valuable information on these points.

Or better still—if you are in doubt write to STARK BRO'S SPECIAL SERVICE DEPARTMENT, which is in charge of the most expert men in America. For over a century we have been in close touch with every section of the country. We have planted orchards of our own in 27 states. For four generations we have painstakingly collected hard, hed-rock facts. The experience of tens of thousands of successful growers who have tested and proved the value of our comprehensive information, assures you of similar success. But don't put it off.

Write today! Right now—your letter will receive our first attention.

¶ You should also take some good reliable fruit paper so you will be constantly advised of up-to-date orchard methods. Write us and we will gladly advise which fruit paper best fulfills your requirements.

STEP TWO—Find out what varieties of each fruit bring the highest prices. Don't grow fruit that does not sell easily and quickly. Our market experts have set their knowledge down for you in this book. It is vital to Stark Bro's business existence that your trees give thorough satisfaction. That is why their valuable service is offered to you. Avail yourself of this opportunity. You may make a big winning and can lose nothing, by studying this book which lists the best producers and the "best sellers" among fruits.

STEP THREE—Get sturdy, strong good trees. That is a head and shoulders start in the race for profits. We have only one specialty—growing good trees. We make only one grade—1st class. On the basis of the proved "betterness" of the Old Oak Process Whole Root Trees we have builded a world-wide reputation that has endured 101 years. And it is constantly growing larger and more solid. You can't afford not to plant genuine STARK TREES from Stark Bro's.

STEP FOUR—Make your selections and send in your order today. You have everything to gain. Let us make your reservations now while our assortment is complete. We will then be able to ship at the earliest favorable date, so your trees will arrive at just the right time for planting. Prof. Bailey editor of the Encyclopedia of Horticulture, and Dean of the New York Agricultural College, one of America's foremost authorities says:—

"The buyer should make up his mind just what varieties he wants and order early enough to get them.

"Buy where the best trees can be obtained and where there is good reason to expect reliable stock and honest dealing. Stock should never be purchased because it is cheap. Poor stock is dear as a gift."

Take our advice, take Bailey's advice—and the advice of every experienced planter—Order Early—Order Today—NOW.

Special Quotations—Estimates We make special prices on large orders and car lots. Write for estimate, give list of requirements, varieties, grades, etc.

Louisiana, Mo. is located on thru main line railroads, north and south, east and west. We

can make surprisingly quick shipment to all parts of the United States.

Parcel Post Orders We can ship 2 to 3 ft. size trees by parcel post. Add three (3) cents to the 2 to 3 ft. price and this stock will come to you by mail post paid. We can also ship grapevines, berry plants and small size Ornamentals in the same manner—prices are 3 cents more than listed. However, we prefer express and freight shipments, but make this offer for those far removed from railroads.

We strive to avoid mistakes, but in the event that any nursery stock sold by us should prove untrue to name under which it is sold, we hereby agree on proper proof of such untruthness to name to replace the original order, or to refund the purchase price. Except for such liability and in respect to all nursery stock sold by us we give no warranty express or implied as to description, quality, growth, productiveness or any other matter. Our just and liberal dealing with the public for 102 years is the strongest guarantee that could be offered.

Special Notice When buying apple, pear, peach, quince, cherry, crab apple, plum, apricot, dwarf pear, dwarf apple, shade trees, shrubs and roses, the following explanation of Price List should be read carefully:

500 Rate—300 (or more) of a kind (as 300 apple, 300 pear), but not less than 10 of a variety.

100 Rate—30 (or more) trees of a kind (as 30 apple, 30 cherry), but not less than 10 of a variety.

10 Rate—10 or more of a variety, but if as many as 30 or more, customer is entitled to 100 rate.

Each Rate—Less than 10 of any variety at each rate.

In buying raspberries, blackberries, grape, gooseberries, currants, dewberries, hedge plants, 25 of one variety go at the 100 rate, 300 at the 1000 rate.

Most Desirable Varieties are printed in the heavier or black face type.

HOW TO ORDER

Write Plainly On the order blank enclosed, fill in your name, address, and the place to which you want the stock shipped; use pen and ink whenever possible. State specifically the number of each variety or kind wanted, and mark the ages and sizes of each. Carry out the prices, and extend the totals correctly.

Book Index This price list also serves as an index to our big book, **SUCCESS ORCHARDS**. See page number after each variety.

Upon receipt of your order we will mail you a postal card of acknowledgment, which also gives you a number under which your order is entered on our books.

When writing us regarding your order, always give your order number. Regardless of how often you may have written us, please be sure to sign your full name and address, and if replying to any letter from us, give the date of same.

Inspection The Certificate of our State Entomologist is attached to all shipments. No diseased or infested trees are permitted in our nurseries.

Order Now As far as possible, orders are handled here as they are received, especially selected and reserved in customer's name for shipment at the proper time. We always advise prompt, early orders—better service for our customers, better for us.
